

Tecnology generated the highest overall sales and profit, while Furniture yielded the lowest profit margins despite strong sales volume

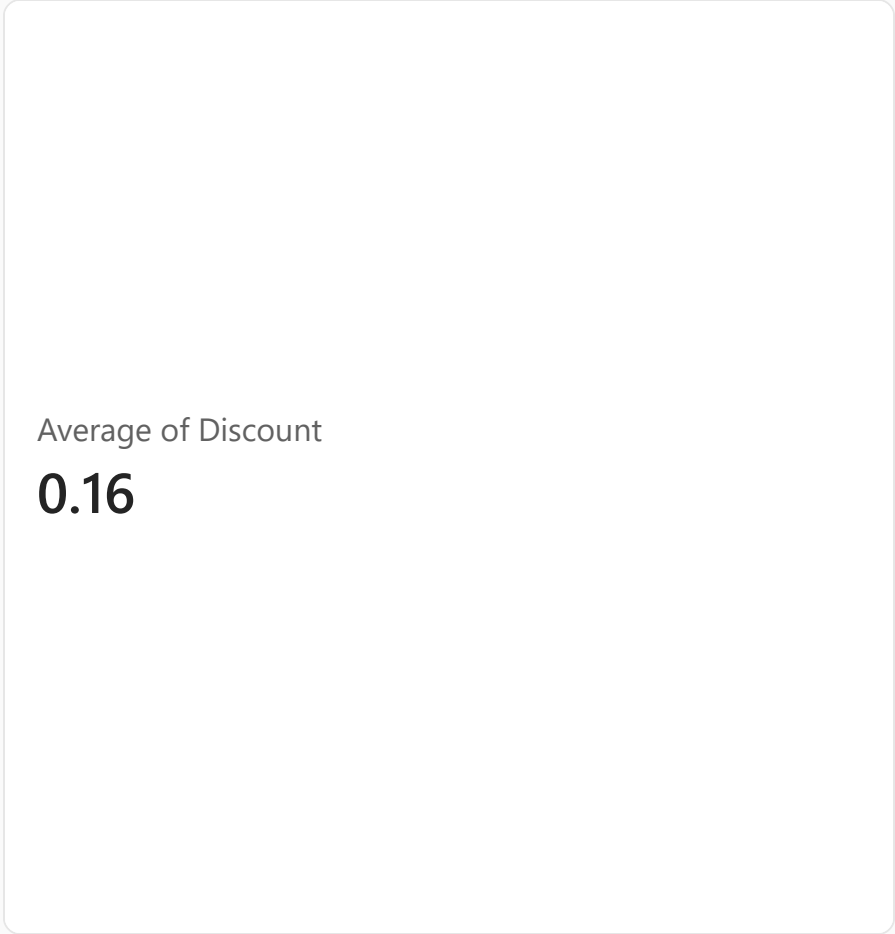

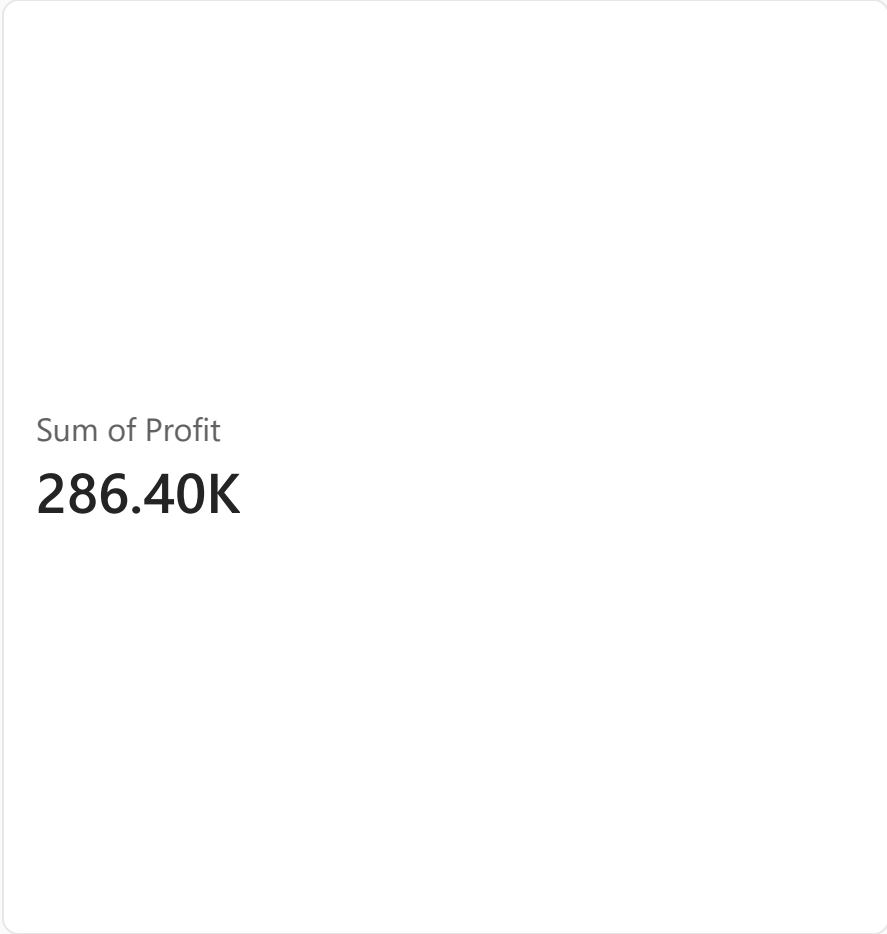

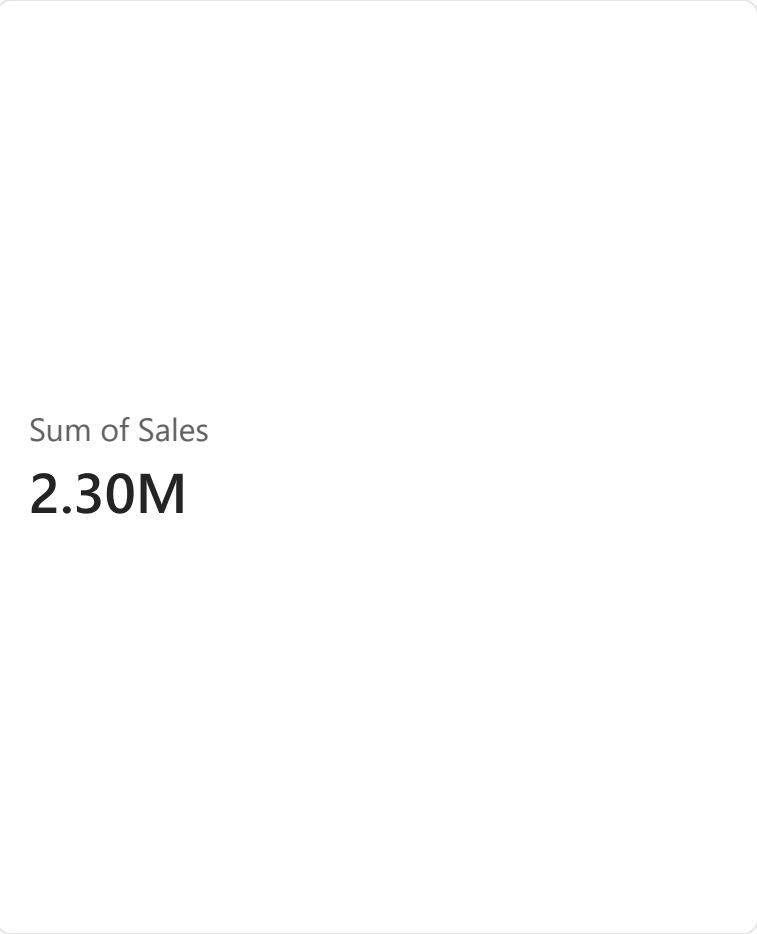

Sum of Sales and Sum of Profit
by Region

The West region generated the highest profit, whereas the central region yielded the lowest profit margin despite stong sales volume

High promotional discounts exceeding 20% directly correlate with heavy profit losses across vulnerable sub-catagories like Table and Binders

Recommendation: Implement a strict 15% discount ceiling cap on high-loss sub-categories to recover profit margins without hurting total sales volume.
