

Region	Total Sales	Total Profit	Region Rank
Central	501,239.89	39,706.36	3
East	678,781.24	91,522.78	2
South	391,721.91	46,749.43	4
West	725,457.82	108,418.45	1
Total	2,297,200.86	286,397.02	1

Total Sales and Total Profit
by Region

Day 18: Region Performance - Viva / Interview Questions

Q1: Why did you use the ALL() function inside the RANKX measure?

Answer: The ALL('Sample - Superstore'[Region]) function removes the filter on the Region column, allowing RANKX to evaluate all regions together and assign an accurate rank relative to the entire dataset.

Q2: What is the difference between a Calculated Column and a DAX Measure in Power BI?

Answer: A Calculated Column calculates values row-by-row during data refresh and stores them in RAM. A DAX Measure calculates aggregations on-the-fly (at runtime) based on user interaction, making it performance-efficient.

Q3: Key Business Insights:

- West region leads in both Total Sales and Total Profit (Rank 1).
- Central region maintains decent sales volume, but its profit margins are lower compared to other regions.
